Memorandum

TO : AD/OEL

DATE: 10 February 1965

FROM : DAD/S&D

SUBJECT:

I feel that this would be a very profitable course for somebody from the Agency to take. It appears that [REDACTED] is not particularly interested nor is [REDACTED]. The objective, of course, would not be to have our man lead the class in grades, but rather to be well drenched in the processes that are available.

As an alternate, I would suggest somebody from GSD or perhaps OCS who would be closely connected with our problems. I think that this ought to be a senior man so that we don't get insnarled between the technical numbers and the facts of life.
